**GAS, GAS, GAS.**  
AS Gas is the order of the day, the question is  
who can get the cheapest? being propelled by  
the force of circumstances, and the great depres-  
sion in the money market in Europe, I will sell  
fresh champagne at 67 cts per gallon, warranted to  
give in weight, for less money than any other  
burning fluid in use. Purchasers may rely upon  
always finding fresh champagne, and the price is  
guaranteed to be cheaper than a poorer article  
found elsewhere. Sold at RIDER'S,  
97 Thames-st. Nov. 30.

**Chemical Erasive Compound.**  
A valuable preparation for cleaning all kinds

**Thames-street, No. 157.**  
**SHOES, BOOTS AND GAITERS.**  
A very Extensive Supply.  
In offering this stock of goods to the public, I  
am aware that the satisfaction of making a good bargain is incom-  
plete—it is not realized when the purchaser does  
not know that he is receiving for his money the  
very best return. To give, in this case, full assu-  
rance, I will say, that whilst the above goods are  
too valuable to allow of being purchased at low  
prices than other goods in market, I will, notwith-  
standing, sell them at such prices as cannot fail to  
secure a continuance of that custom which I al-  
ready have so largely and so liberally received.

by "I was surprised, Mr. Roger, to see you  
speaking with that creature," said Miss Prim  
significantly emphasizing the word. "Why,  
madam?" asked the old man. "Because  
she is a low, vile creature of the town," said  
she waspily. He took her hand within his  
own and looked her calmly in the eye as he  
replied—"Call her not vile, call her miser-  
able, rather, and as such she is more worthy  
of your regard and pity; for though she may  
have erred, she still is free and depraved;  
that old spark of sympathy in her heart  
is there yet unquenched. I have seen her  
not long since watch by the sick, work for  
the needy and give her money for their re-  
lief, take her own bread and give it to a poor  
fellow in prison, and comfort a little child in  
sinless sorrow." "I have seen this, and bad as  
you think she is I can honor her for her vir-  
tues." "My dear madam, grieve her good qual-  
ities and add them to your own perfections  
before presuming to sit in judgement on her  
bad ones. Besides, do you know what tem-  
tation is, madam? were you ever tempted?"  
The frosty look which met his own seemed  
to render such a question unnecessary and  
he released her hand, gently advising her  
to exercise more of charity in her estimate  
of character.—Boston Post.

It is said that the late Pope Gregory  
was very fond of wine, and the following  
anecdote is told of his appearance at the  
gate of Heaven.  
"The late Pope Gregory XVI. was rather  
fond of the bottle, and after his decease  
when he made his appearance at Saint  
Peter's gate, the following colloquy took  
place: Saint Peter with his ear against the  
door, asks: 'Whose there?' 'It is I, the  
late Pope Gregory.' 'Well, come in, you  
have the key.' 'I know it, but it don't fit;  
I have been fumbling here for an hour or  
more at the key hole.' Saint Peter, open-  
ing the door from the inside, says: 'De-  
vise your key.' 'Pshaw, you have made  
a grand mistake; this is the key of your  
wine-cellar!'

We scarcely know of a more touching  
instance of the ruling passion strong in  
death than is afforded in the last words of  
a schoolmaster, who had gone in and out  
before successive little flocks in the same  
place for upwards of thirty years. When  
the film of death was gathering over his  
eyes, which were soon to open in the pres-  
ence of Him who took little children in his  
arms and blessed them, he said—  
"It is getting dark—the boys may go out  
—school's dismissed."

Why is the letter a lazy and extrava-  
gant letter? Because it is always "in bed  
and never out of debt."  
Why is the letter a most uncertain let-  
ter? Because it is always in doubt.

Advertisements will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. As one proof of this fact, the list of Letters remaining in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

ADVERTISING.—A fact to be considered by business men who think Advertising don't pay.—About six months since, a young gentleman of our acquaintance was about starting in business and was complaining of a want of capital to carry it on successfully, even though he intended to do but a very small business. We advised him to advertise and told him by so doing he would meet with rapid sales of his goods and instead of keeping his stock on hand he would realize for it cash. He was incredulous; but as he was an intimate friend and to convince him that we were correct in our assertions, we offered him the benefit of our circulation, at his own price, and now having been in business just six months he has cleared over two thousand dollars. He says he has now learned of us how any man may make a fortune, viz.—by Advertising in the newspapers, and attending to business. We would give the name of the young gentleman referred to, were it not that some would say that he has made enormous profits on his goods; but such is not the case. His profits on the dollar have been small, but his sales are large.—Boston Bee.

FRANCE.—The following proclamations and decrees have been issued by the provisional government, &c.

All prisoners for civil or commercial debts to be set at liberty. Corporal punishments to be abolished in the navy. Schools to be established on the model of the Polytechnic School, for the education of young men for the different branches of the public administration. The monopoly of government advertisements enjoyed by certain newspapers to be abolished. Salaries of Foreign ministers not to exceed 25,000fr. The sum of 100,000,000 remaining to be issued of the loan voted by the law of the 8th of August, 1847, to be immediately issued as a five per cent. loan, and called the national loan. Minister of finance to form such lots of the wood of the state as may be usefully sold, and to order the sale thereof to the amount of 10,000,000fr. Officers and soldiers absent on leave, forthwith to return to their respective corps. A Polish legion to be formed. 60,000,000 francs to be placed at the disposal of the Minister of Finance, to be divided among the various branch banks which are to be established in Paris and the departments. All religious congregations and corporations not authorized by the law, and particularly the congregation of the Jesuits, to be dissolved.

NEW POWER LOOM.—Messrs. E. L. Norfolk, Samuel S. Stanley, and J. A. Marden, of Salem, Mass., have lately taken out letters patent for an original power loom. It dispenses with the shuttle box, picker and picker staffs, and is to work at any speed without the shuttle flying through the shed. The shuttle is different from those in common use, being much smaller, and there is much less friction offered as a resistance to its operation.

ORGANIZATION OF THE ARMY IN MEXICO.—Orders have recently been issued by Gen. Butler, organizing the army in Mexico.

The regulars consist of three divisions; Gen. Worth's of the 2d and 3d artillery, and of the 4th, 5th, 6th and 8th infantry; Gen. Smith's—light company K, 1st artillery, mounted rifle regiment, 4th artillery, 1st, 2d, 3d and 7th infantry, and marine corps; Gen. Cadwallader's—field battery under the command of Capt. Steptoe, 3d artillery, 9th, 11th, 12th, 13th, 14th and 15th infantry and voltigeurs.

The volunteers consist of two divisions. Gen. Patterson's is as follows:—Battalion Gen. horse, three companies Illinois horse, Massachusetts, 1st and 2d Pennsylvania, New York, District of Columbia and Maryland, South Carolina, 2d and 4th Ohio, 23 Illinois regiment of foot, New Jersey and Georgia battalion of foot, and one company of Florida foot. The other volunteers are under Gen. Marshall.

# STEAMER BAY STATE ON THE ROCKS IN HURL GATE.

A report was received in town last evening by the steamer Governor, from Fall River, that the Bay State went ashore on the rocks in Hurl Gate, yesterday morning, while going into New York. This was the verbal report, said to have been received in Fall River by telegraph, and some doubts were expressed as to its truth last evening, but as she has not arrived here, as we go to press, (5 1/2 o'clock,) we conclude that there must be some foundation, at least for the report, though we hope it is not true.

We spoke a day or two since, of some Cigars which we had received from our friend William Newton, Esq. We have since given them a fair trial, and find them far superior to any which we have lately smoked. The brand, "Le Juvenile," we can recommend to all lovers of the weed. They are mild, and being well seasoned, smoke freely and burn evenly. The flavor is delightful, and, altogether, we pronounce them most excellent.

As the smoke of these cigars ascends, we imagine that we see fairly forms, like those emanating from the pipe of Washington Allston's Paint King, sitting about in it, but we conclude that this is nothing but imagination, brought on by the inspiring nature of the cigar.

The Albany Knickerbocker made its appearance on Monday last in an entire new suit of type, and printed on a new steam press. The Knickerbocker is a first rate paper, and we wish it all that success it merits.

ABOUT TO RESUME.—The Danville, Pa. paper, alluding to the stoppage of the Rolling Mill of the Montour Company, informed us that it will go again into full work as soon as equitable arrangements can be made with the workmen. It appears that during the extravagant prices that ruled last year, the workmen struck for and obtained a corresponding advance of wages; and they are now very properly asked to return to the former rates to meet the reduced prices of iron.

PEACE.—We noticed in our last paper that United States Stocks and Treasury notes had advanced considerably in view of the prospects of a speedy peace—thus showing by this great thermometer, the stock market, that confidence existed in the confirmation of the treaty. We understand that within a few days letters have been received by Mexican citizens, from officers of high rank at Queretario and other places, which speak of peace as a thing concluded—nevertheless some of these letters refer to Bustamante as raising troops—having raised 15,000, and expecting to raise 30,000, and that the cannon foundries were in full blast. This being the fact, would not tend to discredit the other opinion, as it is probable that some of the military chieftains of Mexico may think it expedient at the conclusion of a peace to have at hand a strong army for their own purposes.—Flag, Matamoros.

A REFUGEE FOR IKINOSI.—At the meeting in behalf of France and Liberty, held at Harriburg, Pa., on Tuesday evening last, M. B. Lowry, Esq., of Crawford county, suggested the propriety of instructing our Senators and Representatives in Congress, to procure the passage of a law, granting 80 acres of land to each of the Crowded Heads of Europe, that they might emigrate to the distant West of our country, settle down in quite, become useful and respected citizens, and under the protection of the Stars and Stripes receive such practical lessons in the science of self-government as would undeceive them all their lives as to the efficacy of royalty.

HORRIBLE.—At Mayville, Ky., a Mrs. Evans having left her infant child asleep in a cradle for a few moments, a lunatic named Reed, who was near reading the Bible, took the child, placed it on a board, and deliberately chopped off its head with an axe!

A verdict of \$1500 has been rendered in the court of Lexington, Ky., in favor of Cassius M. Clay against the parties who took down and sent off his printing apparatus of the True American, advocating the abolition of slavery, in 1845.

WEEKLY STEAMERS.—The Cunard steamers will leave Liverpool for America every Saturday, and Boston and New York every alternate Wednesday for Liverpool.

A NEW MINERAL USED IN ARTS.—Mr. Blake, lately a citizen of Alexandria, Va., and now of Akron, Ohio, has discovered a mineral in the neighborhood of the latter place, which promises to be of great value. He has visited Washington and received a patent for it. When first dug up, it is of the consistency of tallow, and gradually hardens in a few days so as to resemble slate; and, finally, it becomes as hard as rock. It is of the color of indigo, is impervious to water and fire, and admits of the finest polish. When reduced to powder, and mixed up with linseed oil, it has the appearance of black paint, and may be spread over wood, canvas, &c. &c. Rocks have been guarded by it against fire, and as it does not absorb the rain, it protects the rafters from decay. It consists of about one-half of silica, one-fourth alumina, with less proportions of magnesia, black oxide of iron, sulphate of iron, lime and carbon.

BENEFITS OF ADVERTISING.—John Derby of Ware, Mass., advertised for a wife, and received seventy-five applicants. Some of the applicants pressed their claims with such vigor, that poor John, to get out of the scrape placed a rope round his neck and hung himself.

SPEED OF MEN.—Men who are accustomed to running will outstrip horses, as they can hold their breath longer. The King's messengers often walked to Lepahua in 14 hours, about 108 miles. A man, properly trained, will also walk down a horse, and a Hottentot will run down a lion.

It will be observed, by a notice in our paper of to-day, that there is to be a meeting this afternoon of the subscribers who have taken stock in the Telegraph Company, and we hope soon to see the line to Fall River in operation.

The Egyptians believed that they should rise again in three thousand years, and now it is just about the time when they are taken up out of their graves, unshrouded and exposed to the eyes of men once more in the shape of mummies.

YUCATAN.—U. S. steamer Iris was to sail from Carmen to Sisal the last of March, to take off the inhabitants of Sisal and transport them to Laguna to prevent them from being massacred by the Indians or driven into the sea.

OYSTERS.—The New York Morning Star reports that several oyster dealers in New York had to close their shops in consequence of the great scarcity of oysters. The price has advanced fifty per cent within a few days.

ADVICE.—Perform a good deed—speak a kind word—bestow a pleasant smile—and you will receive the same in return. The happiness you bestow upon others is reflected back to your own bosom.

SPINSTERS.—Formerly, women were prohibited from marrying until they had spun a set of bed-furniture; and were consequently called *spinsters*, which continues to this day in all legal proceedings.

On Monday, April 3d, the Boston Banks paid dividends amounting in the aggregate to \$44,500 over the last semi-annual dividends. This will help business a little.

The Legislature of Kentucky and Connecticut are competing for the honor of granting the most divorces. Kentucky unmarried thirty discontented couple in one day.

FROM RIO JANEIRO.—Bark Kathleen, of New York, brought papers to Feb. 23.—No American vessels of war in port. A negro plot to murder all the whites had been frustrated at Pelotas.

George Morton, aged 70 years—arrested in New York for rape on a girl of 11 years—hung himself and died in his cell while the jailer was taking of his testimony.

The trustees of the Indiana, Wabash and Erie Canal offer for sale about eight hundred thousand acres of land, chiefly within a few miles of that route, in tracts of forty acres eighty acres and quarter sections.

NEW CANAL.—As a piece of work, the Illinois and Michigan canal, just completed, is said to be the best in the Union. A line of beautiful packet boats have already been completed at Chicago.

DUEL.—Acting adjutant Edward McPherson was killed at Mier, March 18, by Lt. Joseph H. Madock, at the fourth fire. They were intimate friends the evening before.

We can imagine a beetle on the floor of Congress.—True Sam.

We can't imagine that, but we can imagine the consternation, the intense curiosity, and the significant looks such an article in such a situation would occasion.

THE MECHANIC'S FAIR.—First in the line of dentistry, Dr. Morton's stand presents a fine collection of mineral teeth of the own manufacture, including whole sets of various sizes and forms. Nothing more perfect in this line can be desired.—Dr. Morton's Office is at 19, Tremont Row.—Christian Watchman.

We must look for happiness in the world, not in the things of the world; but within ourselves, in our temper, and in our hearts.

The whig members of the New York Legislature, in caucus, have expressed their preference for Mr. Clay, as the first choice of the whigs of that state.

The gold and silver plate in Windsor Castle is valued at not less than £2,000,000.

Somebody suggests that birch rods make the best baby-jumpers.

Russia is more than half the surface of Europe, and ten times that of France.

Great destitution and distress still exist in Newfoundland.

## Newport Victualling House.

W. M. MORRIS, announces to the public, that he has opened a Victualling House in the premises lately occupied by Thomas Sherman, in Market Square, where he intends to be supplied with the best Oysters, Meat of every kind, Pastry, Cakes, &c. Hot suppers served up in good style, and every attention paid to those who may patronize the establishment. Captains of vessels and sea-faring men generally will find this a very convenient place to stop for a dish of Oysters or any thing the market affords. April 1st.

JONES'S SOAP.—Ladies in the country and watering places, see how the sun has burnt your faces! Look at your necks—how yellow, dark with tan! Why, will you refuse the love of any maid? Those freckles, too, you know they'd quickly fly if Jones's Soap you use; come once—do try!—Rejoice, be fifty cents, and I am told it's worth, aye, doubly worth, its weight in gold. Persons who have had no faith in it, have been astonished at the wonderful effect of Jones's—that is, the genuine Jones's Soap—in beautifying the skin. For sale by Dr. R. J. Taylor.

## UNITED STATES HOTEL.

On Pearl, Fulton and Water sts., New York. BY H. JOHNSON. THIS is one of the largest and best kept Hotels in the city of New York. Board \$1.50 per day. Its location is particularly convenient for business men, and Mr. Johnson, the popular and gentlemanly landlord, makes the comfort of his guests a constant study. May 3.

One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the vital processes of animals. For this we are indebted chiefly to the German and French chemists. We have now a clear understanding of the different actions of aliments, poisons, and remedial agents, and the long derided theory of the blood being the portion of the system upon which the latter should act, is now a demonstrated truth. The great object, therefore, is to ascertain what remedy will act most directly upon the constituent of the blood when in the act of combination. Experience, observation, and a cloud of witnesses, establish the fact that SAND'S SARSAPARILLA is the very head of this class. Cancer, scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this unfailing purifier of the blood—for the blood is the channel through which disease finds its way to the various organs of the body.

Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton st. N. Y. Sold also by Dr. R. H. Hazard and R. J. Taylor, Newport, by J. Russell, Fall River, by C. Dyer, For sale by R. J. TAYLOR.

To enable Mankind to Die of Old Age without Disease.—The public may not be aware that the Rev. B. Hibbard's Vegetable Pills are the very best Family Medicine extant; perfectly reliable in every emergency. No one can foresee the moment when they or their children may be attacked. Disease comes like a thief in the night, and in times of peril, anxiety and danger, it is a relief to the mind to have at hand a remedy so certain, prompt, and efficient in warding off as well as curing disease. Ship Fever, Typhus Fever, Congestive and Bilious Diseases are rife throughout the land. To travellers, emigrants, soldiers, and families, we say, neglect not to provide yourself with so potent a purifier of the blood, so safe, mild, and universal a remedy as these sovereign Vegetable Pills. Remember the name of Rev. B. Hibbard is on the label of each box. All others are spurious. T. R. Hibbard, M. D., 26 John-st., New York, proprietor. See advertisement in an other column.

**Phalon's Chemical HAIR INVIGORATOR** adopted on just principle, abandoned while heaven's good means of accomplishing it. Who will neither seek an indirect by a specious road, nor take an unproven cure—a real good purpose.

Are astonished when I overtake a Jew?

**Phalon's Chemical HAIR INVIGORATOR.**  
A REMEDY for all diseases of the Hair, is a restorative in all cases where baldness is beyond the reach of art.  
That endowed with such of nature, use Phalon's Hair Invigorator.  
The subscriber having devoted a considerable portion of his time or twenty years to the study of the skin and the human hair, also the best means of treating and curing the same, and having, in the course of his experiments made various changes and improvements in the different articles approved as the best for such purposes, has at length, after laborious research and deep investigation, succeeded in bringing to perfection a composition, the virtues of which he challenges the world to excel.  
The Chemical Hair Invigorator is composed of a number of vegetable ingredients of opposite qualities, and approved by the highest medical standard, the secret of blending and combining, which is known only to the subscriber, who has spared neither pains nor expense in bringing it before the public.  
The Invigorator is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture of the hair never before attained, yet free from animal grease or essential oils. It cleanses the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so—will positively change the hardest hair into the most soft and healthy and glossy state, also imparts to it a darker color, and a free use of it will keep both the skin and hair in a healthy and luxuriant state until the last period of life.  
Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moistened with the Invigorator can be dressed in any required form, so as to preserve its place whether plain or curled. When used on children's heads it lays the foundation of a good head of hair.  
Invented and prepared by EDWARD PHALON, professor of Wig Making and Hair Cutting, 61 Broadway, New York.  
A treatise on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff and preserving the natural beauty and softness of the hair.  
Price 50 cents per bottle—large size, \$1. For sale wholesale and retail by GORTON ANDERSON, No. 151 Thames-street, Newport, and by J. Balch & Son, 42 South Main-street, Providence, and by druggists and hair dressers generally in Boston.

# Mutual Benefit Life Insurance Co.

Office No. 91 Wall Street, N.Y.

1. The Mutual Benefit Life Insurance Co. is authorized by its charter to make all and every insurance pertaining to or connected with life, of whatever kind or nature, and will grant annuities and make endowments, as by the Act of Incorporation, passed the 30th January, 1845.

2. The directors of this Company, deeply impressed with the very great, useful, and growing importance to the community at large of Life Insurance, would call the attention of the public to the following observations and principles, as intended to explain to them its peculiar advantages, and the particular features of this valuable institution. It is seen above how extensive the privileges are reaching to every risk pertaining to or connected with life; guarding and supporting infancy to old age; in all grades of professions and trades; orphans, widows and their children; by a small annual investment, on the principle of *Mutual Benefit*, arising from Mutual Insurance, being a self-protective society. In this there is no Money Stock; the funds or capital arise from premiums paid in which persons make insurance; and these form the means to make payments on policies, grant loans, pay expenses, and yield profits. All persons insured become members; but are not liable beyond the amount of the premiums to be paid by them. The books of the company are open to them, to see that the annuities paid, or securities received, are deposited or invested according to the charter, and the net profits, at fixed periods, are divided among them, as hereafter explained. The table of figures, and the rules, are made and calculated with accuracy, after the experience and practice of old English companies; and all persons can see by them how much they have to pay, and the gains they will be likely to receive. This plan is the basis of the *Savings Bank and Mutual Benefit*, affording the security of the one, and gain of the other, and is entirely benevolent in its operations; it also embraces a provision for Married Women to insure the lives of their husbands for any amount, the premium of which shall not exceed \$300 per annum, and is secured to them against any demands in law of creditors.

3. The greatest portion of society, who by daily exertions of in industry earn support, as artisans and mechanics, deriving livelihood from personal labor and skill, seldom resort to Life Insurance, in any numbers, for a future provision for their families, though to none would it be so important as to them, who, by sickness and death, may in a day, leave those nearest and dearest to them in poverty. To them in mercantile pursuits, and those in professional business of every rank and class, or those who have uncertain or small incomes, and who are most numerous in wealth in the aggregate, and have it in their power to provide against the vicissitudes they are constantly exposed to, Life Insurance is also of the utmost importance; they, and those in lower circumstances, are often deterred from entering into contracts of insurance, as the advantages appear remote—being contingent on death, or ability to pay the premiums.

4. To assist all such, this *Mutual Benefit* society arranges the payment of the premiums, and of returns in part of the same, as to enable all persons to become members, and enjoy its advantages while living; thus protecting themselves in life, and providing for their families after their death; in this way a short life may obtain, and leave to heirs the benefit of a long one.

5. This Company will grant insurances on lives, on

the actual principle, to applicants upon their own lives, or the lives of others, for the whole duration of life, or for a limited period, at the rates specified in the tables, for sound and healthy persons. Also, any person in sound health may insure \$500 for life upon his own or his wife's life, or the wife upon the life of her husband, or the age of thirty years, (and in like proportion for other ages), by paying 25 cents weekly, or \$1000 by paying 50 cents weekly, the policy always remaining with the Company, with the premiums paid endorsed thereon; and in case of death they will be entitled to the amount thus insured, deducting therefrom the balance remaining of weekly payments, with interest, for the current year. No risk will be taken on a single life for more than \$5,000, until the profits of the Company amount to \$50,000, after which, according to the profits, the amount will be gradually extended to a sum not exceeding \$15,000.

6. This better to enable all persons to insure, the Company will annually issue Scrip certificates, of estimated profits, bearing interest at 6 per cent. Whenever the accumulation of net profits of the Company shall exceed the sum of \$200,000, the excess may be applied from year to year, or semi-annually thereafter, towards the redemption of each year's certificates of scrip, in whole or in part, as may be determined on by the board of directors, priority to be given to the scrip first issued. The insured may borrow from the Company on his scrip, two thirds of the amount of the same at any time, which will enable him to use a portion of his profits for the payment of his annual premium, even before the redemption of the scrip. All classes of persons will thus be admitted and enabled to meet the premiums, and have the gain of the *Savings Bank*, with the profit on a large business, by an actual small investment or outlay of money.

7. All claims for insurance will be paid three months after satisfactory evidence of the death of the persons deceased is exhibited and approved. Should it any time be desirable for a person to sell his policy, where it is for life, the Company will purchase the same at an equitable rate.

8. Parties insured at the table rates of premiums, are not to pass south of the Southern line of Virginia and Kentucky, or east of the Mississippi River, between the first day of June and first day of November; but can visit any part of the United States or Northern British Provinces, between the first of November and first of June. By the payment of an extra premium, insurances can be effected by persons who desire to reside South during the interdicted time.

9. All persons whose lives are insured by this company, are permitted to travel on any of the regular mail routes, (within the limits prescribed in the policy) or on any of the Northern or Upper Lakes, by steamboat or other common mode of conveyance.

10. Extra hazardous risks will be taken on persons going out or residing out of the limits of the policy, and embracing all parts of the world; also on all persons going to sea, and such other risks as may be specially agreed for, being more hazardous, to be expressed in their policies. The extra premiums to be computed upon equitable principles.

11. Insurances will be made on the lives of Military and Naval Officers, off or on duty, in time of war or peace.

12. What can better illustrate the wise disposition of the Supreme Being, in the varying term of human life, than the certainty of the general laws that regulate its duration, and the reflections that arise from the contemplation of these laws operating constantly upon the human race? Life Insurance then rests upon the simple fact, that every individual of the human race has, at the period of his birth, a certain term of existence, which he will live through, or what is called the mean duration, or expectation of life at birth.

13. It is a question how such term of existence, or mean duration, is found? This is done simply by taking the number of years that have been lived through by a party from birth to death, and also of 1000 others born at the same time, and dying at all ages from 1 to 100 years old—the number of years thus lived by each person is added into one sum and being divided by the number of persons, the mean duration of the life of man is ascertained.

14. If it were found on trial, that on taking the result of the lives of 1,000 or 10,000 individuals, and deducing the mean duration, and then going through the same process with like numbers, and the mean duration of the latter differed widely from the former, it would be to no purpose to follow out experiments; but this is not the fact, and in nothing is the uniformity of the general laws of nature more powerfully exemplified, than in regulating the period of human existence. The result of experience is constant; that two bodies of individuals, each of 1000, living in the same country, and of similar occupations, have each a period of mean duration, which differs only a trifle from that of the other body. Apply this to insurance on life in the same body of persons; they pay a small sum or premium, annually, and the office, or Company, agrees to pay them, annually a profit, and a certain sum at the death of each; as, by example, the average expectancy of life is found by experience, to be of a person in health of 25 years, 38 years more; and of 40 years, 28 years longer; then by the tables of rates, the first has to pay \$20 40/100 a year during his life, to secure \$1000 to be paid to his wife or children after his death; the second pays \$32, to insure the same; then taking the gain of interest, and other items, that make up the profits on Mutual Benefit, it is almost certain the amount of \$1000 insured will be much increased, when in the end it is to be paid to his heirs, all which is firmly established by the facts of experience. Life Insurance, therefore, on Mutual Benefit, is not a fictitious scheme to draw people into, for money-making purposes. Such an idea, if it exists, is most incorrect, and dissolved at once by the very fact, that this is a *Mutual Benefit* Company, and consequently any person taking out a policy, becomes a member by a small annual payment, and has a joint interest in its concerns, and a voice in its management. Founded on scientific principles, exemplified by experience, its real services then to all classes of persons, who are dependent on certain incomes, or salaries, professions, mechanical skill, or daily labor cannot be denied; and it has proved essentially beneficial to the families of such, in event of death; and is therefore an institution ranking among the noblest works of benevolence in the world.

15. Such being the equitable and beneficial principles on which Mutual Life Insurance is established, it presents a most suitable and favorable means of providing for the endangered and dependent lives of children; for what is the situation of a man, who, for the gratification of his affective

surrounds himself with a wife and child, and lives in the enjoyment of those valued blessings, and knowing that in an instant the consummation of his life may throw them into a state of destitution? The neglect, then, of such a citizen, and the provision, in gross unprovokedness, for it is not mere a man's absolute duty, to provide while he lives the daily bread for his family, than it is a gained leaving them to suffer penurious misery in the event of his death. It is then a religious as well as a moral duty, to be amply accomplished by weekly, monthly, or yearly earnings—and this *Life Insurance* of *Mutual Benefit*, is the protection against such dreadful evils.

The observations and explanations above made on the principles of Life Insurance generally, and particularly the great and very superior advantages exhibited to the public by insuring in this *Mutual Benefit* Company, the credit which policies will give to men in trade, the gain it may be to all classes in their business vocations, and the duty of all to provide for their families, should induce every person to give this subject a careful consideration, remembering the injunction of Scripture, that "if any provide not for his own, and especially for them of his own house, he hath denied the faith, and is worse than an infidel."

## Hyer's Pills.

The American Improved Hygienic Vegetable

SAFE, CHEAP AND EFFECTIVE.

This medicine makes no pretensions to miraculous powers, the raising of the dead, or to infirmities and astounding sales daily and hourly, after the most approved method of the times, but bases all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and seeks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, *scholarly upon its own merits*, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years), as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try and then judge.

## The Good Things of the Season.

FOR Parties, Holiday Presents, &c.

WINTER evenings and YOUNG'S Variety Store form pleasant associations for the inhabitants of Newport. There is nothing so scarce as that can contribute to the comfort of all, that cannot be obtained at this store, and all as low and a great many such, less than can be bought elsewhere in Newport. For example, we will attach the following prices, and every article is warranted.

Western Apples from \$1.75 to \$2.19 per bushel; shell-barks \$2. per bushel; peanuts \$1.63 per bushel; chestnuts from four to five dollars per bushel; almonds one shilling per pound; new raisins, figs, dates and currants 12 1/2 cts per pound; we sell these last named articles at wholesale prices. Peaches 20 cts per pound; grapes 25 cts; new green 28 cts; preserved ginger \$1.12 per jar, or 30 cts per pound, in small quantities; candies and all kinds of confectionery cheaper than they have ever been sold at any other store in N. Y., at wholesale and retail, always fresh and of the finest quality; for the truth of this we wish every one to come and judge for themselves.

This is no idle advertisement, merely to draw people to my store to disappoint them, but a plain statement of facts, which all may ascertain by calling. Also several kinds of Cough Candy, warranted equal to any now in use, for the cure of all kinds of complaints arising from colds.

Fancy articles and toys of every description, in any quantity, such as silk purses, pocket books, cigar cases, pocket knives, alabaster, razors, razor straps, hair, clothes, tooth, and shoe brushes, fancy work boxes, walking canes, dominoes, dice, conversation cards, French and Highland do, combs of all kinds, cologne, hair oil and pomatum, cigars, tobacco, and everything that is ever kept in a confectionary and variety store.

New sweet cider on draught or by the barrel.

## Brownell's Cooking Range.

THE subscriber has just completed the invention of a new Cooking Range, to which he invites the attention of the public. This Range possesses qualities for expeditious boiling and cooking that other Ranges do not, and it occupies but a small space of room.

Brownell's Cooking Range has six eight inch boilers, any two, or four of which, can be thrown into one; so as to admit of a large boiler, and is provided with a set of rings, so that any size furniture can be used on it. Its Oven is large, convenient of access, and having an upper fuel.

One of these Ranges is in successful operation at the store of the subscriber, subject to the examination of the public, who are invited to call and take a look at it. WILLIAM BROWNELL, June 2

## BARTINE'S LOTION, Kidney & Horse Liniment, and Grap's Lotion, for sprains, wind-galls, ring-bones, spavins, fresh wounds, stiffness of the joints, &c., in horses, a new supply of the above is received at R. R. HAZARD'S, Near the Court House.

## China Glass and Earthen Ware.

THE Subscriber has just opened at the Glass and China Store, Colonnade Row, No. 2, Thacker street, the most extensive, and best selected stock of China Glass, and Earthen Ware, ever offered in Newport, to which the attention of the public is invited. His Stock consists in part of the following articles: Lamps, Solar Lamps, Chandeliers, Candelabras, Lustre Girandoles, Hall Lamps, Side Lamps, and in fact every kind of Lamp now in use, varying in price from almost nothing up to \$25.

China Ware.

Several splendid Dining Sets of pure imperial China Ware, warranted superior to anything else before offered in this market; Splendid pure China Tea Sets, of the latest and most approved patterns for sale low.

He also has a great variety of common Ware for family use, which he will sell very low. He is now prepared to furnish families, and also to fill orders at the shortest notice; he also keeps all kinds of ware to let for parties, &c., on the most reasonable terms.

JOHN T. STANHOPE.

## Coggeshall & Bliss' Patent Cooking Range.

THE subscriber has just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public. This Range may be set in the ordinary fire place, and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.

Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old-fashioned Ranges, or cook stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains an Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.

The subscriber has one of these Ranges in operation at his store, where the public are invited to call and examine it, and if they will, they may at once discover its utility. He also keeps constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c., &c.

## Look at This.

Rev. B. HIBBARD'S Vegetable and Anodyne FAMILY PILLS are not found to be the most convenient, the best physic ever tried, and fully equal to any recommendation of them. You do not find that one of these pills does more good than from four to six of any other kind, every agent stands ready to receive the empty boxes and refund the money.

These Pills are recommended as being without equal in all Billious attacks, affections of the Liver, the Biliary system, or any complaint arising from taking cold, or obstructed perspiration. They carry off the bile, cleanse the stomach and bowels, and re-open the closed pores of the body, thereby letting out the insupportable perspiration through its accustomed channels, and relieving at once the internal organs. Also in old chronic affections, as Dyspepsia, Sick Headache, Rheumatism, &c.—Mind the Directions, which go with each box.

Every agent has circulars of these Pills to give away.

Half a Pill is the usual dose, though sometimes one Pill, or even more. Children of one year and over, one quarter of a pill, of 7 years and over, half a pill. These Pills are purely VEGETABLE, and may be taken under all circumstances, without regard to drinks or diet.
